Commercial-In-Confidence

Use case example

RISKflo fully digitized the supplier risk assessment process for a global bank

INPUTS

- Supplier background
- Risk profile
- Cross jurisdiction regulatory requirements
- Sub-contractor information

REVIEW AND ASSESSMENT

DATA-DRIVEN DECISION MAKING

Questions referring to below will be answered to decide suppliers status:

- Is the service considered as **outsourcing**?
- Is the outsourcing service considered as **material/ immaterial**?

Given those answers, should we pursue this use of supplier service? If so, how and why?

DECISION

THE RESULT IS A VALIDATED PERSPECTIVE FOR EACH SUPPLIER
