

 **Introduction**

What we do

Our Company has two key missions:

Making it easier to integrate iAM Smart for both industry and Government Bureaus

Creating innovative use cases for iAM Smart and new iAM Smart powered products

HOW WE HELP CLIENTS

Our Product

Audited Government eID SAAS/IAAS, providing our clients full access to government eIDs, without any of the hassle

We help our clients...

Save time, money and expertise

Our clients can fully integrate in **under 2 days** vs **9 months** through a self developed solution

Eliminate regulatory headache

We have a **standardised deployment method** that has already been **regulatory approved**

Reduce time to market

We have existing use cases and partnerships to immediately add value to clients

HOW WE HELP CLIENTS

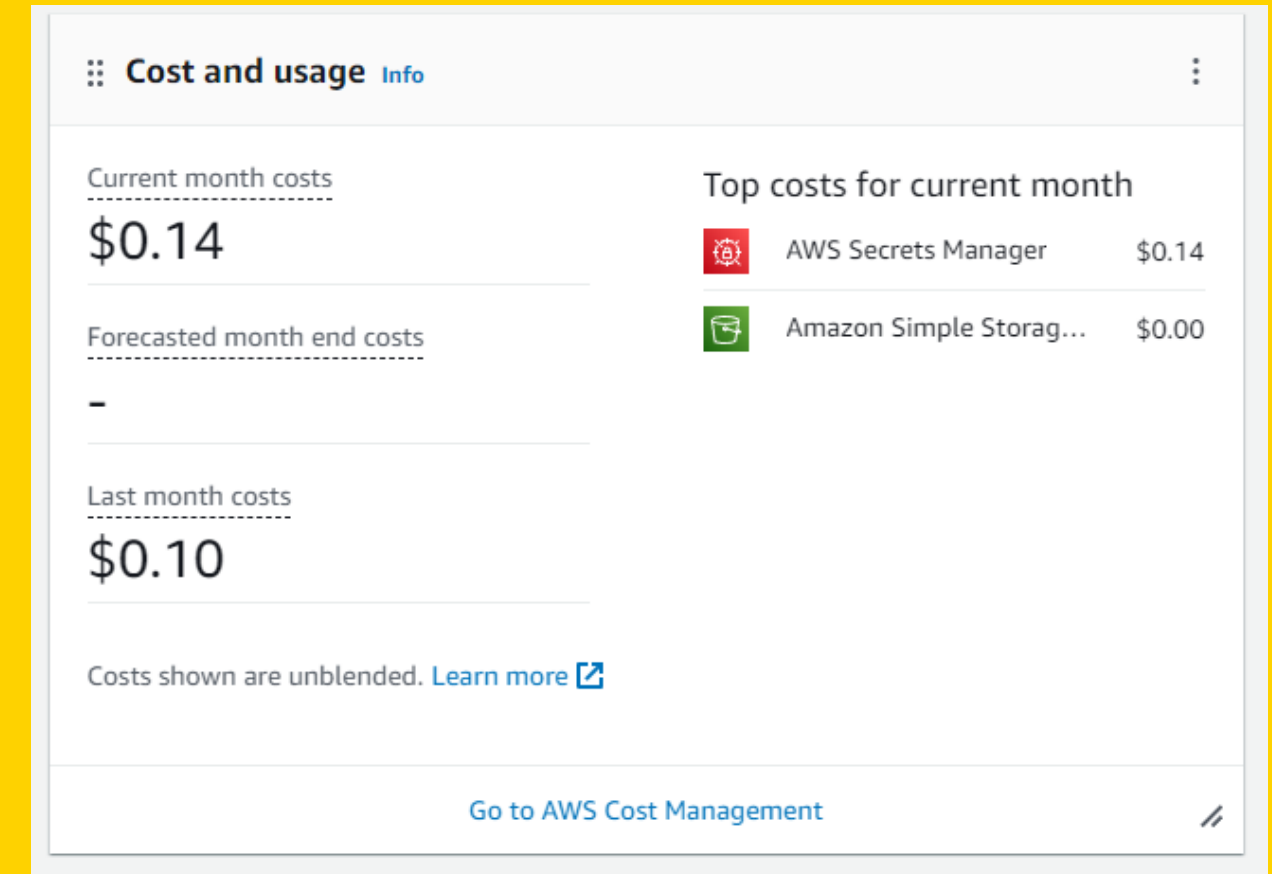

Use Case 1

Successfully deployed for a government bureau within their AWS cloud in under 1 hour, using our standard template

Deployable in GCIS/AWS

Key Features

- Standard deployment process using serverless technology or docker
- Save time & money on deployment and SRAA
- Modular design for ease of integration

```

Use Case 2

Successfully deployed for a HK university using our Fill Easy hosted solution

Available through our API service

Key Features

- 24/7 monitoring in our cloud environment
- Automated and simple to use - clients can easily setup new IAM Smart servers
- Fully compatible with our following products and services

1. Deploy

Organization / Company Display Name
Example: Fill Easy Limited

Organization / Company Shorthand
Example: fill-easy

AWS Region of Deployment

2. Enter Secrets

🙁

lamsmart Singpass

lamsmart Client ID

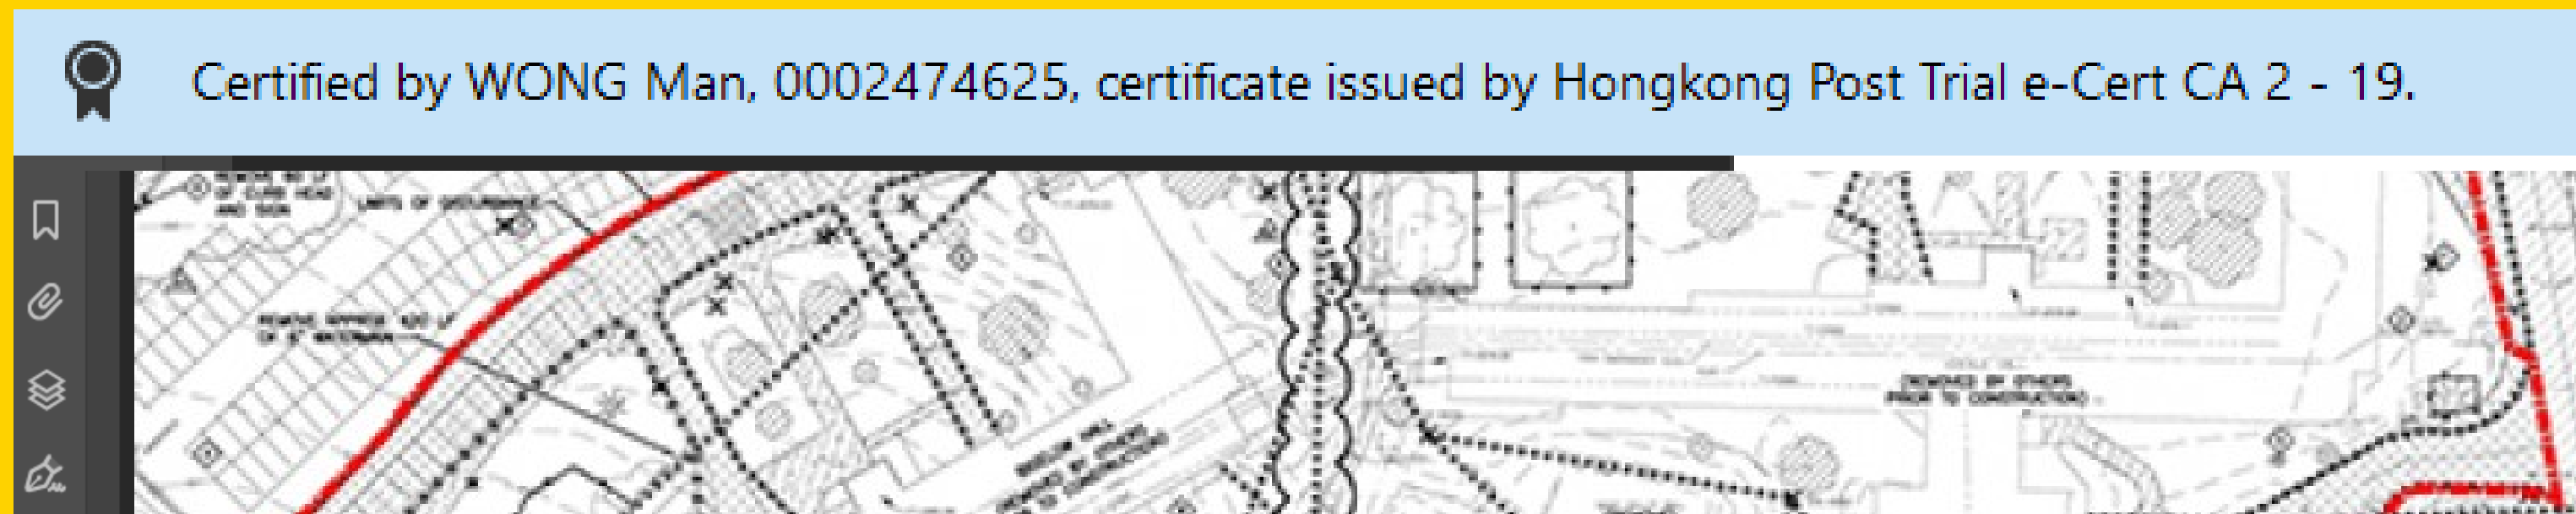

lamsmart Client Secret

P12 Passcode

Upload your P12 certificate: No file chosen

Use Case – iAM Smart Digital Signing

Use Digital Certificates to sign documents and prevent modifications

Key Features:

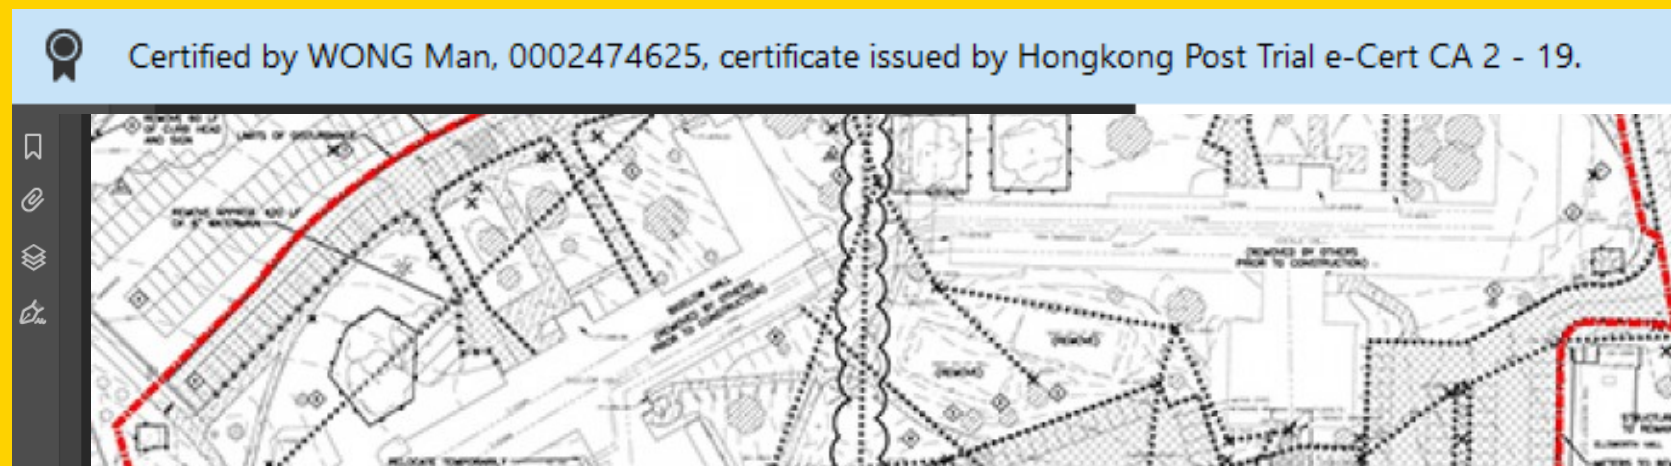

- Creation of certified documents
- Certificate is attached to the PDF with timestamp and other information for verification
 - Badge will still appear when it's sent to 3rd party
- Takes around 1 minute to sign

Key Benefits:

- Widely accepted by government, industries, and regulators
- Prevent disputes regarding documents

Use Case – iAM Smart Digital Signing

SAMPLE 1 – Verified PDF

SAMPLE 2 – Verified PDF

SAMPLE 3 – Invalid PDFs will be alerted

收取電子簡單服務的電郵地址： _____

用戶簽署
(如以公司名義申請，請填寫獲授權代表)

iAM Smart App Interface:

The screenshot shows the iAM Smart app interface. At the top, it says "iAM Smart Documents from 'Form_signing_tool' is awaiting to be signed". Below this, there's a section for "To-do tasks (2)" with a card for "Form_signing_tool" that says "Document is awaiting to be signed expired in 9 mins 58 secs" and a "To sign" button. At the bottom, there's a "Scan QR Code" button.

Cancel Signing

Organisation: Fill-easy
Service: Digital PDF Signing Powered by Fill Easy
Document: sample.pdf
Identification code: 5364

Please follow the steps below:

1. Open "iAM Smart" app in your mobile device
2. Tap on "To Sign"
3. Make sure the identification code shown in "iAM Smart" is the same and tap on "Sign" to complete the digital signing

*With future bulk signing included

IAM SMART SECURE FILE SHARING

Use Case – Private Enterprise Cloud

Secure File sharing/Upload using iAM Smart – Users can only view files after verifying with IAM Smart

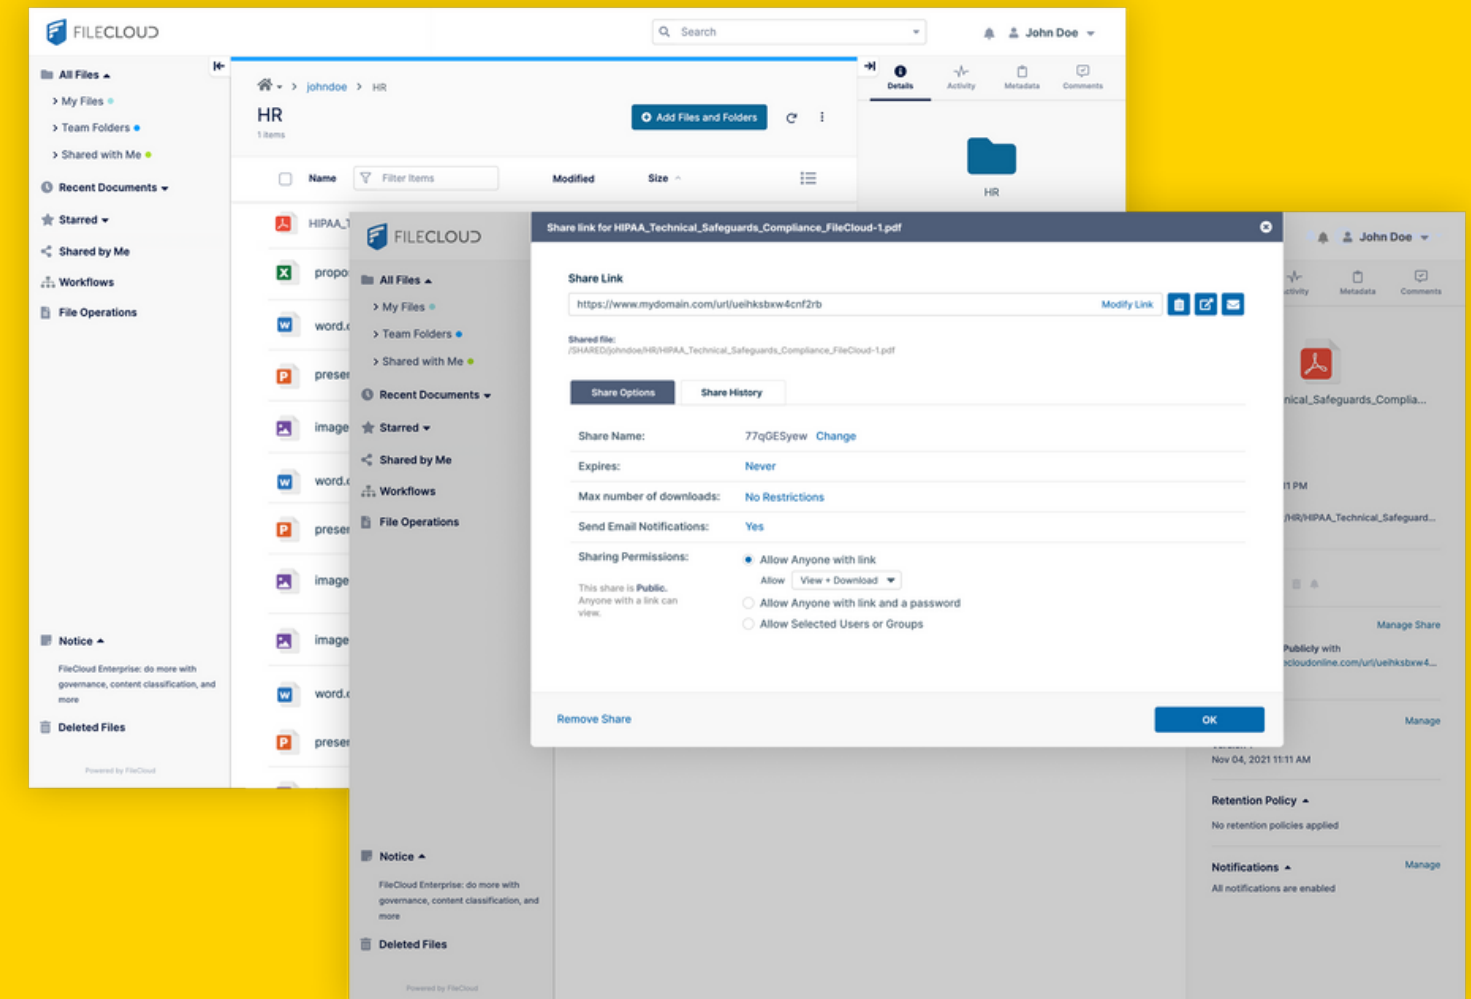

Deployable in GCIS/Public Cloud

Key Features

- Secure Collaboration & Sharing for government departments
- Prevent unauthorized individuals from accessing sensitive documents
- Track and trace user details
